Improve your Photography

The City of London & Cripplegate Photographic Society meets at 6.45pm on the first and third Tuesday of every month at City YMCA, 8 Errol Street, London, EC1Y 8LX , behind Waitrose just north of the Barbican Centre.

Our varied programme includes :

- Tutorials and lectures covering a wide range of photographic topics
- Workshops and practical sessions and demonstrations
- Competitions with independent judges giving constructive critiques
- Exhibitions where you can display your work
- Social events and outings

Club members have the opportunity to exchange ideas within a friendly group, while developing their own individual style and expanding their knowledge about photography.

Our members include beginners, enthusiasts and professionals. You don't need to own an expensive camera to become a good photographer. One year's membership of City of London and Cripplegate Photographic Society will improve your photography for little cost.

All are welcome to attend our varied programme of lectures, workshops and competitions. We simply have a suggested donation of £3 for non-members, to help cover the cost of the room hire.

More information and up-to-date details of our lecture series is available on our website: <http://www.cityandcripplegate-ps.org>
